Welcome to MDM 2006 Japan

This is the 7th of a successful series of conferences that aims to serve as a specialized conference on mobile data management systems and applications. MDM aims to bring together researchers and practitioners from the data management, mobile computing and ubiquitous computing communities. Since its inception in Singapore, MDM has continued to be a premier world conference about both theoretical and practical aspects of mobile data management. Previous MDM conferences were held in Singapore (2000), Hong Kong (2001), Singapore (2002), Melbourne (2003), Berkley (2004), and Cyprus (2005).

MDM 2006 will be held in Nara, Japan. Nara is the ancient capital city of Japan and one of the most famous
